Spring, 2011

Volume #11 Issue #1

March 11, 2011

Dear Friends In Christ,

Blessings in Jesus.

At the beginning of each year, everybody wish the best. And such it was starting the 2011. What a beginning my brothers!

The Arab world is upside down, thousands of deaths around the world, Israel is shaking, the gasoline price is growing fast, Mexico is getting worse, and then you name it.

No doubt, the last times are here, and Jesus is coming back. Only the blind and the foolish cannot see it.

We cannot do much for the world situation but pray. But for sure we can do some in the places where we live and move.

Check the date: On March the 7th we celebrated 24 years in Mexico, and we still feel that there is much to do.

Yes, we will do exactly what God will ask from us this year. Some pastors called us telling not to go this year, others saying go. I will be honest, this caused a little confusion, but at the end, we will do God's will as we did in the

Uber and Jose' both lost their fathers: one by the narcotics and the other for sickness.

past.

Lord willing, next month on April 19th, Wendy and I will celebrate the Silver Anniversary. We have been married now for 25 years, full of up and downs, sweetness and hardness. But we truly thank God for His faithfulness! Nothing more, nothing less. Twenty-five years spent serving our God, our children, and His people. No doubt about it. Amen.

I want to thank all of you who have been concern for my surgery. I am felling a lot better, thank God. But I'm not yet 100% back to normal.

Despite the surgery, I had good times of prayer, reading, and meditation as I recover. and just doing what I can by God's grace.

I spent the last 2 days in Juarez blessing somebody. Take a look at the photos. While in our mission in Cuauhtemoc we are building the last part of a protective wall around us.

There are many desperate people out there who lost jobs, family members etc, due to the violence, and we have been visited already from thieves. I have been also visiting people in prison and

The windy season just started. Sometime it is just nasty.

Inside the house electricity will make it more bearable

A needy man we are helping to get electricity in the house.

trying to bless inmates both materially and spiritually.

Please pray for our program for this 2001. This includes:

- 3 or 4 mission trips to the Hispanics in the USA
- an outreach in Central Mexico
- the tent campaigns
- prison ministry
- and, Lord willing, a visit in Italy at the end of this year.

Every time I talk to my mother long distance, she breaks my heart telling me to see her before God calls her home. Thankfully, Alzheimer has not removed from her mind God's love and the love of her 3 son's. Bless the Lord.

We love you all, dear people of God. Thank you so much for your help and love. We do not deserve it, but we need it.

God bless each one of you.

Renato

Renato and Wendy

This home, at least has electricity.
