Friends of the Gospel of Christ:

Bless you in Jesus's Name.
Greetings from Italy.

After 3 full years, God gave me grace to visit my home land. So far, it's been very good: 14 days with 12 preaching services, and numerous visits etc.

Also, the people are more humble and open to listen. The crisis has its positive side. Thank God. Last time I came, most of the people were looking around, proud and arrogant, now, many lift their eyes to heaven.

Being here, i understood why Islamic are invading Europe. In my opinion the church is not reaching them in their lands, so God is sending them to the church.

I am saying this because, in the evangelistic meetings we had so

far, in open public places, and in churches, several Muslim folks came, and they are so open to the Gospel, you wouldn't believe it.

I was ready to cry when I looked at 2 young Muslims, in the beginning of the meeting like statues, but in the middle of the worship time, their faces changed and they start to lift their hands worshipping the God of Israel.

I wish you could see it. My heart was ready to come out of my chest for the joy.

I did not take any photo for obvious reason.

I pray that all is OK with you.

Be blessed. We love you all.
