March, 2017

Friends in Christ:

Bless you all.

This past March the 7th, we accomplished 31 years of ministry in Mexico. We did not "build" an array of physical buildings, but we can assure you that, by God's grace, we have been refurbishing many lives with the Gospel of Jesus Christ. Amen!

Many have been asking what happened with the property we are using as our mission base. Here's the scoop: the local Judge, in a clear situation of corruption, decided in favor of our opponents, but the State judge, reversed the decision and decided in our favor. This should conclude the matter. Thank the Lord. A lawyer-friend in Las Vegas told me: "we have the possession of the lot, but we are not the owners". The previous owners (who donated the property to us

about 14 years ago) are considered the legal owners, though they gave it to us and do not

have the possession of the property. It is legal confusion, isn't it?

We want to leave the place, as we do not feel comfortable anymore. Something very drastic happened months ago to convince us of this. So we are looking for another place to go. We have peace and patience and God has His timing. We ask for your prayers for God's guidance and Spirit as we navigate these waters.

As for our ministry, we continue to concentrate on the work God gives us. So far, so good.

I have just returned from a fruitful time in Phoenix and Las Vegas. And now, I go to Mexico again to continue our labor for the Lord. Please continue working with us in prayer and encouragement. Mexico is not getting any safer at all. It is a daily life risking.

Love you all.
