Still on the move. Thank God! Not leaving a single village, town or city behind.

My new bodyguard.  
No, I'm with Pastor Rodolfo, a warrior.  
He just has hard time to find his size clothing.

Thank God, He moved a precious brother to donate new belts, to replace all the old cords.

Not all the time is like this.

July, 2017

### Friends in Christ:

Many blessings in Christ from troubled and bloody Mexico. We pray you are all fine. Thank God, we are.

The last campaigns have been in small villages, some of them for the first time, where lately have been hit by severe violence, and I mean severe.

It is just heart broken to see and hear stories. Sadly, Christian families have not been exempt from this tragedy.

The most encouraging side, has been that when we went to the mayors of these villages to ask permission to set up the tent and have meeting. They did not even let us finish talking, offering us the lot we want.

All these village mayors said the same thing: Please stay as long as you want, we need more people like you.

It was God's glass of cool water, I must say a river of fresh water in a desert of pain, at a 100 degrees or more, the last two days without electricity and no water, plus a huge storm of flies that makes your life

Our reward: fruit for the Master.

miserable. It does not matter, we go on, God's grace is enough. Hallelujah!

You feel so good when things like this happen. It is something that comes from heaven and is hard to put in words.

"One life, and will be soon gone, only what is done for Christ will last".

Please, the way you can, and where you are, do something for God's glory, it is all worth it. The majority of people do not live anymore, they just exist, they need life. Amen.

Together through your help and prayers we minister in the name of Jesus to these people. You efforts are an important part of this ministry and always greatly appreciated.

We love you.
