Friends in Christ:

Celebrating God's love, we greet you in the Name of Jesus.

In the middle of our 6th tent campaign, we can say that, by God's grace, we still have enough gasoline to go on, accomplishing with the schedule set before us.

We count with the help of our committed coworkers, our local Mexican brothers and sisters, and most of all, with the powerful help of our dear Mennonite brothers. Working together as one, for His glory.

When we set up the tent in a village, we make sure to visit all the others next by, bringing the Gospel in every house. Traveling dangerous, dirt roads, that seem to go nowhere in areas that are forgotten even by politicians, God reaches out to even the forgotten people. We can only trust the Lord for His protection in our coming and going.

In one of these village, we visited a house overwhelmed by sadness. In a bed we saw a man's skeletal body, barely breathing, immobile, and with his eyes closed.

A former alcoholic, he stopped drinking for 9 years then began again. This caused him to

overturn his truck which resulted in a very serious head injury.

Approaching him I asked if he was listening to open his eyes, he did, then I read him the Psalm 23 and prayer with him. Guess what happened: he moved his legs and arms, but no talking yet. Praise God.

Next week, will go to visit him again, hoping to see a complete miracle.

Stand by us, we need you.

We love you.

Renato and Wendy
www.citmexico2.org

Go and preach, God will save.

An event in the main plaza: spiritual & material food for all.

Christian Mennonites servants, at work.

In this place we set up the bigger tent, among the Indios, working in the apple fields.

It is always a super blessing to receive our children, in this case Jethro.

Wendy, well received from the listeners.
