

CHRIST IS THE REDEEMER

Mexico Newsletter

Brothers & Sisters in Christ,

God is good and faithful and we all know it very well. I will focus this news on the new mission base, as you know what we normally do.

Thank God we are 60% in the new property, we are working very hard, and God is supporting it all.

We are making the existing house livable, because it is not. It was a deposit of old tires, used motor oil, and you can imagine the smell. A dear friend, who is the pastor of a very small and humble church, called this morning to encourage us, reminding us that God still supplies life, food, rain, sun etc. for a world who disobeys and offends Him, how much even more will He supply for His servants, who are bringing the Gospel of salvation. How refreshing and blessed this call was, coming at the right time, in the right situation.

Wendy is working as substitute teacher, to cover the normal expenses, so all the offerings, can be direct to the payment of property. And we sure appreciate her sacrifice of love.

We are not neglecting the spiritual work. Celebrating 2 marriages, mission trips, visiting churches, donating goodies to the needy. We are now collecting blankets and groceries which we do each Christmas. We keep focusing on that which lasts for all eternity. God is providing and motivating Christians to give and to come and help in the work. We are so humbly grateful for such love and concern.

In a few days we should sign the papers for the new property and complete the first payment.

At this point, we need all the help possible. We thank you very much those who already did.
