Brothers & Sisters in Christ:

A little more than a year ago, the entire world was embarking on a year-long journey of the Covid virus and all that it entailed . We didn't know it would lock us down. We did not know it would take the lives of our loved ones. We still do not know exactly, how it did start or how to stop it.

At the same time, we received the news of Wendy, that you all know about. It has been tough and hard, but God has been with us all the way. Amen.

We are considering, in a while to take a little break, a short rest ,

for a very needed family time together. Probably not everybody will be able to, but we will try, God willing. But, there is something we know, that is UNCHANGING and IRREVERSIBLE: GOD'S LOVE. And He showers His love on us every single day.

God still speaks, make a ways, provides, heals, and He still answer prayers, for all of us. Nobody excluded.

Our hearts are full of joy, to see the tent up again, after almost 18 months. The tent is just another way to reach people, God uses it big time. Every single night, since when we started, we have seen people saved and, scared Christians recovering trust in God.

Wendy's border ministry is still going, it just takes a pause when she needs her cures.

Thank you for letting us be part of your life. When you give, you pray, you love, you are making a deposit into eternity and making others to know the Lord; you are making an impact for the Kingdom.

Because of Jesus,

Renato and Wendy

Things change with time. God does not. We count on Him.

Yes, finally, the tent is up.

Back to our spiritual habitat. Sometime pole fishing, now, net fishing.

In this lot, we can only use the small tent.

What a blessing to see church fully open.
